

The unique experience of rescuers is collected in this collective monograph of Ukraine on the organization of civil protection of the population in the conditions of hostilities. All the presented materials are the result of collection, processing, and analysis of real practical actions of various rescue services and university employees in the area of military actions. Weaknesses are analyzed and recommendations are provided to improve the organization of some of the activities.

The presented monograph is intended for a wide range of civil protection specialists of all countries of the world, which strive for the safety of their compatriots.
